

Since 1957

Did you know that Social Security Statements are now available online?

Smathers Insurance would like to alert you of a valuable tool that you may not be taking advantage of. Social Security Statements can help to predict your retirement future and allow you to view your benefit information and earnings anytime you want online.

This tool is invaluable; because it lets workers see estimates of what they are entitled to later on in life. This makes it a must for anyone that takes their retirement future seriously. Your statement also provides estimates for survivor and disability benefits. Smathers Insurance sees the value in this type of foresight, which is why we hope you take the time to use this tool for yourself.

Mistakes can happen and your Social Security benefits are one area where you want to avoid any errors. Social Security Online Statements allow you to keep an eye on things, so that you can ensure your earnings are being posted properly, while correcting any errors that may arise. Social Security benefits are based on lifetime averages. The importance of accuracy in the posting of your earnings information is crucial to ensure that you get the full benefits that you worked so hard for.

We would be more than happy to answer any questions you may have related to Social Security Online Statements or any other retirement or insurance topic. In order to take advantage of this resource you must be over the age of 18. For authentication purposes and your own security, you will be required to enter information about yourself that matches the information stored about you in the

Social Security database. This authentication is in place to ensure that only you have access to your statements.

Thank you
